Table Stands

Short table stand

Short table stand providing a raised position for near-field monitors. Suitable for 8010, 8020, 8030 and 8040. Heavy black cast iron base with anti-vibration rubber ring, diameter 17 mm. Mounting 3/8" thread on the tube top. Preferably used together with stand plates for better positioning. The 8020 and 8030 models have an integrated 3/8" thread for possible direct fixing without stand plate. The 8040 model must be installed with a stand plate.

8000-406 Table stand (K&M 23310-370-55)

Adjustable height table stand

Adjustable height table stand for 8010, 8020 and 8030 with a base plate that can be attached to a table or flat surface. Preferably used with stand plate and Iso-Pod for better monitor orientation (see picture below). The telescopic tube length (301 to 527 mm) is designed for optimum monitor

positioning behind or above computer screens. Screws and fixing nuts for a 40 mm thick table are included.

Table Stands

Table stand L-shape for 8010

This stand lifts up the speaker from the table, providing less reflections from the nearby surface and eliminating the comb filtering effect. Also this accessory makes it easier to get the loudspeaker's acoustical focus towards the listening position and keep the cables in place.

Floor Stands

Design floor stand

After a long development journey together with K&M, we can finally offer the “Genelec designed floor stand” for the 8000 Series loudspeakers. Harri Koskinen, industrial designer and partner in the design of the 8000 Series loudspeaker made the first drawings several years ago.

This very stable and elegant steel stand has a 420 x 420 mm cast base with an oversized rod combination. Gradual height adjustment is made by a superior positioning and clamping knob. Quick, uncomplicated mounting of the monitor is accomplished using the suspension device. This floor stand is mainly designed for the 8040/8240, 8050/8250 and 8351 products. Weight: 13.4 kg, Height: variable between 1100/1700 mm.

8000-400 Floor stand “Genelec design” (K&M 26785-000-56)

Floor stands

Stable steel stand with a broad round cast iron base. Base diameter is 450 mm. Adjustable in height using clamping screw and safety pin. Mounting 3/8" thread for any Genelec stand plates, from 8020 to 8050 model.

Load capacity: 35 kg. Weight: 10.6 kg. Height: 950 to 1430 mm.

Packing: double cardboard packing; iron base in one and stand in the second. Suitable for all models between 8010 – 8351.

8000-409B Floor stand (K&M 26741-029-55)

Floor stand for 8010, 8020 and 8030, preferably used together with stand plates. Cast iron base with anti-vibration rubber ring. Weight: 5.4 kg. Height: 870 to 1565 mm. Base diameter: 250 mm. Packing: single cardboard box. Suitable for all models between 8010 – 8330.

8000-403 Floor stand (K&M 26000-329-55)

Floor Stands

Design floor stand for 8260 and 8351

Adapter plate for F1 (5040) Subwoofer

Large cable bundle laying on the floor are common in most installations. Considering that a fully connected F1 features 13 different cables, we felt these cables do not necessarily need to lie on the floor. Why not placing the F1 subwoofer ON the wall, UNDER a table or even UNDER the ceiling... This can now be achieved using the F1 adapter plate. As a basic physical fact, the mounting surface needs to be as solid and flat as possible. You can download mounting descriptions from www.genelec.com

Vesa-Adapter

VESA-adapter for 8000-series

Today many broadcast environments and post-production studios have changed the way of installing video monitors. Instead of using 19" rack systems such LCD /Plasma screens are now placed in so-called flat "media walls". All of them feature the international mechanical mounting system called VESA standard.

We all know pictures need to be completed with sound, and therefore we have made a simple adapter fitting all Genelec 8000-speakers. With this small adapter one can mount 8000 series monitors into any kind of VESA 75/100 based accessories.
